

I support both these bills that would make voting more accessible in CT. We should not be trying to restrict voting. COVID 19 has not gone anywhere although the numbers are down. Many people are still unvaccinated. Staying safe from contagion by voting by mail is a no-brainer. Several states vote exclusively or primarily by mail and do NOT have higher rates of voter fraud. That is a misconception that is spread by people who want to restrict access to the ballot box an endeavor I consider anti-democratic.
